Have you ever wondered what happened to the believers after Pentecost when they scattered out into the (wicked) Roman Empire? How was the church able to grow? How did the first century Christians live in the midst of this evil culture with rampant worship of mythological gods? How did they handle traditional Judaism? This excellent study will examine the culture of the early church and show us how the kingdom of God is on the move and like a mustard seed. We will see how grace truly transforms lives and from the early church's example we too will know how to live in our culture. (Kristi McLelland's newest release- follows Jesus and Women)
